

# Mila 2.0

By Debra Driza

## Discussion Questions

If you were Mila, how would you handle discovering that you were an android? Would you be excited or scared? Explain.

Mila is programmed to feel all the emotions a regular teenage girl feels even though she does not have the anatomy to do so. Does that make her feelings any less real than others? Explain.

What is your opinion on artificial intelligence? What are some of the pros and cons of creating artificial intelligence?

Mary Shelly, author of *Frankenstein*, tackles the question of god complexes and the push of science past the bounds of morality. How does *Mila 2.0* relate to the questions posed in *Frankenstein*?

Lucas Webb, a scientist who works for General Holland, is forced to take part in many events that go against his moral beliefs. Why do you think he does this? How far would you go to protect someone close to you?
